the bridge has been subjected to, during the past few days, many wonder that it still stands. It has received some terrible jars, especially from the three or four booms of logs, but it has shown no signs of glying way. It looks buttered-and tempest tossed, but the plers are still solid, notwith-studing the pressure they have withstood. The upper end of the draw yest is hid from view entirely. Many of the plers are still solid, notwithered, and the pressure they have withstood. The upper end of the draw yest is hid from view entirely. Many of the pleie are out and the remaining ones are submerged in water. The southered, or entirely what, there is left of it, is covered with logs and other debris. A section of the footwalk about wenty feet in longin hear the east end of the bridge is tors up, and in according to the said and the planks are torn up, is low the piers tile water acctions and bubbles in regular which pools, and it is a wonder that the masure of the fact of battering rams. But the small army of men, who have been constantly on watch, any "We still the National Parks and the said

A Mass of Drift swings Against Ger-burps and to mers.

The Danube is still in great danger. The many tines that lead from the vessel through the warehouses and over the adjoining railway tracks are continually taut, and more are added now and continuent tast, and more are adoct now and then. The crew has had but little sleep for the past two or three duys, for they have been kept busy night and day, keeping the delft moving-and watching the "leads." Captain Hill, of the vessel, has been unstring in his efforts to save his and watching the "leads." Captain Hill, of the vessel, has been untiring in his efforts to save his steamer and has not had a night's sleep since Friday. At 2:30 P. M. the vessel was in much danger. A large quantity of drift-and timbers which had been floating similessly about in the big eddy just above the Sonthern Pacific's East Side warehouse, worked itself outlinto the stream, and the swift current headed it directly for the Danube. The doming jam was noticed by the captain, and other officers; also by many who watched from the hridge. A hasty survey of the ropes revealed that all were taut, but the vessel was hardly expected to withstand the strain which the following moment: was undergone. Every portion of the large drift struck, and running up on the ropes, camero a dead stop. It required a alarge force of men nearly an hour to clear away the debris, which had accumulated in a second: The Southern Pacific's transportation ferry, lying high and dry on the pontoon, was in momentary danger of being washed away, and hurled against the steamship, which would mean certain and speedy destruction to both vessels, also the bridge. To gnard against such a calamity, an immense coil of cable rope was ordered from the east-side, and being put on a hamit car, the managers of the steam that have been recorded from the east-side, and being put on a hamit car, the managers of the stream of the factors of the stream of the put of the passed across the river. The ferry is now secured by many and atour ropes.

at the same doct, is most also seemed Bolista.

The steamship dock showed the first signs of weakness yesterday afternoon about 4580 o'clock. The water at prepent is within ton inches of the warehouse's second floor, and the ourrient has been wrenching at the pillings numeroifully. While nearly every dock along the water front has lost not less than a half dozen piles, this dock up to yesterday had lost none. Two workmon were engaged on the outler gangyway of the dock, and had just stepped to one side for few minutes, when, without warning, a large pile, two f.e. the diameter, shot upward from beneath and came with a boom sgainst the heavy three-inch planking of the floor. Two of the timbers, which were natiod with spikes, were lifted and pushed uside, while the timber sprung up full ten feet, as if died from a gun. The log receded through the hole it had made, and became firmly fastened between other piles.

The old steamer Salem, now lying at Green wich dock, has been chartered by the Northern Pacific Company, to transfer their passengers at Kalema. The company's big iron ferry at that place is almost unmanageable in the switt current of the rapidly rising Columbia.

T. AVEL ON THE SKAN BRI GE. It Was Grosed, but Opened Again, Owing to a Great Public Clamor.

Orders were given by Superintendent J. W. Campbell to close travel on the upper section of the steel bridge shortly before noon yesterday, and for a time it was enforced: Several gangs of and for a time it was enforced. Several gangs of determined men overpowered the guards and forced their way across, not without quite an animated squiffic in which a number were thrown to the ground. No serious injuries were sustained. It was thought best, however, to open the bridge again, in view of the great pressure of the people wishing to cross, many of their maious to get home. A number of delivery wasons and other vehicles were but the wrong side, and were, of course, shut diff from returning. The electric cars ceased running, as the power house is under water.

course, shut off from returning. The electric cars ceased running, as the power house is under water.

It was not thought by the collector that more than forty or fifty passed through during the time the bridge was nominally closed. As soon as trarel was resumed an enormous stream of people began passing through each way, and it kept a collector at each and busy taking inres. Everyone was ridmentshed not to stand apon the bridge, but to go quickly across. Despite the orders, and the presence on the bridge of a special patrol of several policemen, the railway was protty well timed in places with idling sightseers. Not only did many find the scene fascinating from the bridge and the docks on both sides of the river, but from the hills near the east did approach. At the latter place, the day being so pleasant, several hundred poople, mostly wonder and children, found seats on the fresh green grass, and all day long watched the secthing welcomer, and the fron structure that so firmly may aboutly defied the flood's fury. In the mostly which protects, and lies just north of the pilling which protects, and lies just north of the pilling which protects, and lies just north of the pilling which protects, and lies just north of the pilling which protects, and the for the pilling which protects, and the forther peet flood first one side and then the other, field being iron bands and spikes, which threatened at any moment to relinquish their hold and leave the bridge without pilling protection.

SHOUTS OF "GRT OFF THE RHIDGE."

and went down.

The warehouse was loosened and separated from the imperial mill two lunches, but it seems to stand securely yet. Within the warehouse is 2000 sacks of flour and as many of feed, among which the water is rushing and forming. Many sacks have been washed out. The south end of the warehouse and a small section of the roof are battered out. The imperial mill has in hole backer into the word and, while ten feet of water.

to the city.

FALLING IT EVERY POINT.

CORVALLIS, Fob. 5. P. M.—[Special Telegram]—
Theiriver has failen seven inches aface moon today! and is still falling one inch an hour. The
wind has shifted to west of south and it is clear
and cooler. At this particular point the water
did but little damage. Corvailis is particularly
well situated, an lour streets were high and dry.
The business per ion of Main street was at least
ten feet higher than the water, and the city would
have been safe with twice the volume of water
gushing through the valley. Benton county will
suffer less damage, perhaps, than any other
county in Willamette Valley.

Farmers have been in the city to-day from all
sections, and with the exception of a few smaltbridges wished out, report no damage to speak of.
Your correspondent has just interviewed Superincedent Bowen of the Oregon Pacific, who says

sun shines brightly, a review of the situation here is not so discouraging. The water is out of Main street and off the railroad track below town, and the trestle has settled back with only one small crack in it. The Rickreal railroad bridge was all safe until the dam of the Rickreal mills went out, when the volume of water carried all before it, Halleck's mill dam above Dallas went out and Rate of Bight-Miles-an-Hour. nearly flooded the town, but there was no damage except to a small barn belonging to Mr. Stumpt, which was washed a few hundred feet. About .000 feet of track was washed off the grade at the .000 feet of track was washed off the grade at, the same time the bridge was taken at the Richtreal. Citizens of Salem had been informed that this town was suffering from a scarcity of provisions, and sent the Benthy to the rolled and paid her for coming. The rumor was untrue. The three large grocery stores were well stocked excepting on four, of which three tons was brought this morning.

INDEPENDENCE inb 5-(Special Telegram) Now that the waters are subsiding and lo-day the INDEPENDING 14.6 5—ISBECIAL ILLEGIAM |
Now that the waters are subsiding and lo-day the
sun stitues belightly a curiew of the situation bere
is not so discouraging. The water is out of Main
street and off ite railroad track below town and
the treath has sottled back with only or small
crack in it. The Rickreal railroad bridge was all
safe until the dan of the Rickreal mills went out,
when the volume of water carried all before it
limited, s mill dam above Dullas went out and
nearly flooded the town but there was no damage
except to a small barn belonging to Mr Sumpf
which was washed a few hundred feet. About
600 feet of track was wusshed off the grade, at the
same time the bridge was taken at the Rickreal
Citizans of sakun had been informed that this
town was suffering from a scarcity of provisions,
send sent the Bently to the relief and paid her for
coming. The rumor we suntrue. In three large
rocery stores were well stocked excepting on
flour of which three tons was brough 1 this morn
ling.

The bridge leading to the river from the corner of the First National bank should have such a feature with sex (ight when the cettor floated away. Main start there was recently graded as that the grave did not wash out and is left in fine condition.

PRICE FIVE CENTS.

Mayor Shelly ordered the streets cleaned of rub bish this morning. Yesterday soveral hundred people were watching the flood, and on the ministreat was a trim rowboat, and ladies old and young wore riding in turns up and down the street, there being no particular danger. C. M. Brown, son of a wealth, land owner, who recently deel, brought his family out to a place of safety from Buena Vista bottom. Sunday and returned with C. Critchlow and a hired hand to get out his cattle. He has not yet been hard from, and a rescuing party is out. The well known Ben Hayden was caught on his 2400 acre farm, but arrived in town to day all safe. Greatest Flood Known Since the

FERTILE FARMS CARRIED AWAY

Gr at Damage, to Mining Interests-Oregon & California Track Washed Out for Mites -Much Lose at Reseburg.

sonville, Or, says A phenomenal rainstorm has prevailed in Southorn Oregon since last Friday, which, in connection with melting of anow in the mountains, has caused the greatest flood known since the country was settled. The damage to the Southern region cannot be estimated, as all Postal communication is uncertain and limited, so that only surmise can be made of the The Salem Statesmen of this morning says. The mark of 1800 will not be higher than 1801 in this city. No double wists as to the matter, for in Mr Merwin is house, is a plate mark of the flood of 1861, and it is just thirty inches higher than this year. Dr Davidson was here when the Eagle hotel, ow ned by a brother of Whaley Gravus, stood on the corner opposite the present City hotel, and the water was eight inches deep on the lower floor while this year the ground was not covered there. Salem is without water and light.

Great damage was done to the mining interests of this section by the bursting of dams and reser-voirs, the breaking and filing of ditches, and loss of flume boxes and machinery

MILES OF PAILBOAD TRACE WASHED AWAY

MYRTLE CHEEK, P.D. 5 - Special Pelegram.]The rairroad bildge at Myrtle Creek, is washed
out The Can, onville and Mendies wagon road

ROSEEURG, Feb 5.—[Special Telogram.]—The bridge across Deer creek has gone out. The women mills at this place are a total wrock.

WASHINGTON, NO E-- he house committee on the first the story reached this city that the narrow the house heider across the North Santakm had gone and the house of the Montiell mill should the wrecking of the Montiell mill should be wrecking of the Montiell mill washing away of the Union Pacific what no great damage has been done in this city. A number of baskments including the woolen mills are flooded, and several residents along the river have been torsed to move out.

The river fell five inches to day and is still slowly falling.

Situated on north side of Mt. Tabor, overlooking Portland and East Portland, and every lot a lawn. All cleared. Call or write for map. Investigate and you will purchase.

A. C. CHURCHILL & CO., - 242 Washington St.

We are the well-known pioneers in Astoria real estate. We handle only first-class property. No "wild-cat" additions will ever be found on our lists. We offer bargains in choice inside property, lots in additions nearest the city, and acreage that will command a ready sale when platted. We have sold no property that has not advanced 50 per cent within two months from date of sale. If we have nothing that suits you, we shall be glad to give you the benefit of our experience in finding sale investments.

- FAIRFIELD

We will begin the sale of this choice addition on Monday, Feb. 3d. For twenty days we will sell at the old prices.

SHOREY, :: HALL :: & :: CO., Abington Enilding, Portland, Oregon.

OODSTOCK - The finest, most choice and sightly addition to Portland take pleasure in showing its merits. There is no property in the neighborhood of Portland at such prices that have surety of connection by Electric Street Railway to the center of Portland. We make no assertions that are not facts, and investigation will satisfy you. To those in want of acre tracts for homes, or to subdivide, we have them in Woodstock. No loss of ground in entiring streets but away foot utilized. We believe the best of ground in cutting streets, but every foot utilized. We believe it the best, and will be pleased to try and convince the skeptical.

TELFER & STEARNS REAL ESTATE CO ..

33 STARK STREET. SUNNYSIDE

Can make a better showing in good solid improvements than any suburb of Portland of the same age. Over fifty houses completed and occupied and many more contracted to be built at once; lying directly easi from the business center of Portland; having an abundance of good wafer, and being but fifteen minutes from the center of Portland, on a 5-cent fare, all combine in making it the most favored location.

Prices are reasonable and terms very easy. Before buying see

GREAT RAVAGES OF THE GRIPPE

Supervisor Reardon and the County's Bad Roads -Suddon Death of Mrs Williams-Miscellaneous Local News

The assembly hall of the Portland High School wilding was well filled last evening with the riends and relat ves of the graduating class of 10, on the occasion of the graduating exercises or covering the floor of the and press room, making it on this issue off on the big of three inches in the rise, the will doubtless occur before raing, will again allow the obe put in operation and it bile that to-morrow's Origonal field of the willed the to-morrow's Origonal field of the will doubtless occur before raing, will again allow the obe put in operation and it bile that to-morrow's Origonal field of the will be the story of the William of the will be that to-morrow's Origonal field of the will be the will cal factities of youn only gained by diversing. His actice to the young ladies and gentlemen was well put in all save in one respect.

The speaker erred and went out of his way unnecessarily to arraign the newspapers Heshoved exceedingly bad taste in asserting that the newspapers publish vulgarilles and every thing that is base, and that they do not do what they should for the promotion of good character He forgets that the newspapers are but the reflex of the public life, that they are to a great extent but the chromoters of events, and in arraigning them as on the side of immorality and timined to good morals, he certainly committed an error highly discreditable to his intelligence, as well as to his fairness.

After music the Hoo D P Thompson presented the diplomas to the graduating class, and the "Parting Song," by the members of the graduating class, concluded the exercises

THE GRIP IHAT THE GRIPPE HAS HAD. The Health of the City Seriously Affected-Large Mortality

Mr Edward Holman, the undertaker, says that Mr Edward Holman, the undertaker, says that there have been more deaths in the city the past six weeks than for any similar previous period Typhold fever has been very prevalent, and pneumonia and kindred diseases growing out of the grippe have carried off many old people and feebly constituted younger ones.

Dr Taylor says that the grippe has undoubtedly

Dr Taylor says that the grippe has undoubtedly been the cause of the increased mortality especially in the cases of old people, and in those whose constitutions are weak. Some have discussed who have debilitated their system by dissipation. The physicians who secured the idea of the discussion of the distinct of the discussion of the distinct of the discussion of the product as the state that it is a new thing one needlar feature that the number of cases accompanied by distribute have hieresed from the present, as they were at first, to 15 per cent, now, especially in cases of relapse. Probably half of the cases now are accompanied also by bronchules. A very distressing cough and discharge from the lungs is also present, and in many cases severe neuralgia over one or both eyes.

eyes

The relapse is due in every case to renewed exposure such as will generally produce a cold. A large number of people have died, whose death is really due to the grippe. In some cases it has reduced them so that a simple malady carries them off, and in others previous aliments have made them an easy prey to the grippe

THE EAILROAD SITUATION Union Pacific-Condition of the Northern-

The Southern & Prospects The Union Pacific line from The Dalles east is all clear as far as is known, and the company have had the portage railway at the Guscades put in order and have put on boats between here and The Dalles, and burring a few hours' difference in the time between this city and The Dalles, will take mails and passengers to all points East on

General Manager C J Smith was at The Dulles yesterday morning, and reached the Caseades at noon Every effort will be made to clear the line through the Columbia gorge A large force of men have been such up and distributed to various men baye been sont up and distributed to various points sinong the line to crear away land sildes, and the steamer Williamette Chief has been equipped with audities for boarding these men, and will move from point to point as the work progresses if men enough can be secured the road will be cleared in a week. The river is clear of ue and the boat on the middle river has made a trip from the Dailes to the Chasados so there will be no trouble. In get ting from here to the Dailes.

DELAYED TRAINS ARRIVED

Sinces
Yestarday'ashroug htrain reached Tacona about
3 o'clock, and was started promptly south. It was
thought uncertain, however, whethat the transfer
boat would attempt to cross the Columbia at
night, on account of the driftwood in the river
The situation is also serious between Portland
and Hinter's. The train coming in yesterday
ran through water for helf a mile or more half
way as to the trucks, along the Columbia bottom
Some of the train men do not think more than
one more train can be run merith unless the
Columbia ceases to rise. The two through trains
run from Ellensburg together about twenty
minutes apart a transfer inving been made to
them of Itucatay spassengers baggage and mal
with section. The together about twenty
minutes apart a transfer inving been made to
them of Itucatay spassengers baggage and mal
with section. The together about twenty
minutes apart a transfer inving been made to
them of Itucatay spassengers baggage and mal
with section. The together about a tent of pains
or expose to keep the road open. Latest a lytees
report the line all clear from Tacoma to St. Paul.
The Northern Peeffe through train came in at
12 40 last hight. Mr Hawkins, who got on the
train at Sorague, was at the Merchant 4, and said
in conversation with a reporter that
the water was very highe along by
Pasco and to the westward where the
Snake comes near the track. Trains are here run
very slowly as a precautionary measure. The
snow is all gone east of the Cascades. In the
mountains the danger is from snow. It was quite
an excling pussage across the Columbia, though
no driftwood was seen The river was not thoughit
to be riving a the time the train crossed. There
was about a foot and a haif of water for probably
half a mile southward from Hunter's.

THE SOUTHERN FACIFICS ROAD

Information was recuived yesterday which justified the Southern Pacific people in announcing that they will run trains to-day between i ordinal and McMinnville each way. Construction to this are now at work on each side of the river. On this went side, the pacific particle South Yan Language and the said of the river of the said of the river. On the said of the river of of THE SOUTHERN PACIFIC S ROAD

THE RIVER GIVES UP ITS DEAD

Willamo te Ine Verd ot. Williams to The Verd of William Daily found the dead body of a man floating in the drift wood at the foot of J street in Last Portland. It is attached a line to the body and pulled it to the incline at the constant pressure from above in the lower river will soon run a may look for a very decided fall the ddy to day.

Alternative of Portland controls of Portland controls only places to which travel sible yesterday were Tacoma and wille. There was a time to the body and pulled it to the incline at the foot of k street and there took it out of the water As the county Connect could not reach the East side Justice Bulgeck summoned a jury and held an inquest, composed of F. J. Sprague W. C. Morgan W. G. Everest William Holder man, J. Howe and Michael Dunne. A number of witnesses looked at the body and it was recognized as that of John Donovan, and according to evidence of Doc Reid he was drowned the old steamer Wonder.

THE VERDICT

an reservations made for all points the Northern Racific railroad, the de sleeper and dining-car line to 121 First street, cor. Washington to 121 First street, cor. Washington to 121 First street, will cure to 122 First street will cure to 123 First street will cure to 124 First street will cure to 125 First street and sore threat.

van and that he came to his death by acqidental trowing
The body was taken in charge by Undertaker
Barber It was decomposed and Dr Flinn testi
fied it had been in the water about at weeks
There is little doubt about it being John Donovan
and that he was drowned, as Mr Reed stated
while attempting to board the old steamer Won

SEORT COUNCIL MEETING

In Twenty Five Minutes Bills Are Paid and the

egular meeting of the common council was last evening Muyor De Lashmutt in the and all the members present

the order of Dusiness of Unions Square was taken up.

A number of bills were read and ordered paid also a bill amounting to \$450.80 for laborers employed in repairing and tending the Tanner creek and Marquam crock sewers during the recent

storm
On motion of Mr Parrell the council took up
the matter of the report of the committee on
ways and means on applications for correction
of assessments, which report was read and
adopted. It shows the following aggregate of
taxable property

51 710

Value of agricultural lands
Value of agricultural lands
Value of improvements
Value of merchandise, etc Value of mortgages
Value of mortgages
Value of morey notes and accounts
Value of household furniture
Value of horses and cattle

Net taxable property

like a true variation of the taxance property the chove sum should be multiplied by five. Ordinances were then read and passed under suspension of the rules, levying a general tax of 2 mills, a special tax for the paid fire department of 8½ mills for street cleaning and spruchling, a special tax of 1 mill, and for the police denartments tax of 3½ mills making an aggregate tax of 10 mills on the dollar.

Mr Farrell then moved that, on account of its being a broke up week, in consequence of the flood and other calamities we now adjourn till next Wadesday night, at 7 30 o'clock which me tion prevailed, and the council stood adjourned, after being in assistent twenty five minutes. tion prevailed, and the council stood adjuster being in session twenty five minutes

SUDDEN DEATH OF AN OLD LADY Mrs Williams Thrown From a Buggy and Scan

Mire Williams, an old lady who has resided at Farmington Washington county, died very suddenly yesterday afternoon about six miles from the city, under very teculiar dreumstances. Mrs. Williams it seems, was driving along the coad in a burgy when the animal took fright at some object and suddenly swerved. Mrs. Will iams was thrown to fig. ground, but apparently did not sustain any serious injuries. Just at that time Michael Amacher, a young man came along. He assisted the old leay into the burgy from which she had been thrown, the horse not having run away. Mrs. Will lams requested young Amacher to drive her to bur home at Farmington, which was about twelve miles beyond. This request he complied with Very soon after sharing, the old lady died with Very soon after sharing, the old lady died with Very soon after sharing, the old lady died with very soon sate to his assistance. The young man was holding the lifeless body of the old woman in his arms. She was quite dead and had apparently expired without pain. Amacher states that Mrs. Williams told bim she felt all right before she was helped into the bugy but very soon sank down and died. The three men brought the body to the city, to the rosidence of Mrs. Williams and Curuthers streets. Williams, an old lady who has resided at

CONDITION OF THE COUN Y ROADS

Road Supervisor C C Redman was before the county commissioners yesterday giving them some information as to the condition of several of the county roads on the west side. The Cornell road is impassable in a dozin of field, which same stage of the proceedings. This is impassable in a dozin of field, which make the worst break being at a point known as it first bridge, and roadway for a disease that washed across the road completely covering the blidge and roadway for a disease that the bright and the same stage of the proceedings. This is in the right of operation of the worst break being at a point known as it first bridge and roadway for a disease; and the break and washed the process of the process o

below town has washed out his guily
The Cornelius pass road by the old Holbrod
place is reported as impassable. The winding
road leading toward Scholl's ferry is reported
washed out in a number of places, in some of
them very badly.

FORTLAND AND VIOINITY

Too Much Antidote —It was not alone on account of the crowded condition of the jail that count of the crowded condition of the fall that Judge Tanner discharged the drunks yesterday Indree have been a great many working in the water who, imbued with the popular idea that whisky is the proper antidote to water became as heavily louded with the antidote inside as the lave been furnished with the weather laud out side. Nearly all drinking men have imbined freely, and it was but natural that many have taken a drop too much. A number of nicely drossed bookkeepers, managers ele, have been taken to the police station, sobered up and sent home minus a file gold piece. Same of them had a considerable amount of money commercial paper and jewely on their persons.

APPRECIATED ENTERPRISE -The Pacific Postal Telegraph Company engaged at an early yesterday a team with a sign displayed P

\$25 661 965 7 880,860 THAT GAS COMPANY BEWER-City Surveyor \$18,281 105 to the Tanuer creek sower, may be has figured up the capacity of the wooden sewer through the Gas Company a property and finds that it has the capacity of a sower i feel & inches in diameter or Gas Company a property and finds that it has the capacity of a sower 4 feet 6 nuches in diameter or a superficial area of 169 square feet, while the brick sewer is equal to a circular sewer of six feet in diameter, or has a superficial area of 28.55 square feet. From this it will be seen that the capacity of the brick sewer is meary double that of the wooden sewer M. Bays when building the brick sewer said that the wooden sewer would make trouble in ease there ever cume a flood which filled the brick sewer

which filled the brick sewer

A THIEVING OUTGAST—Abble Wallace who keeps one of the dive eight storman Second street ne r D, was arrested yeterday on complaint of John Hokesen, who charges her with stealing \$37.50 from—him Hokesen, who is a railroad labiter, visited the wanna two or three times and on his hast visit, while he was talking to the fair Abble, she slipped her hand 187.50 She refused to give it up and he caused be arrest. The woman admitted taking the poney and said she had the had the

of ball she is in jair

ATHE City JAIL —Judge Tanner yestorday discharged all the drunks and petty offenders who were in the big coil at the city jail. The jair building is none too large at best, and yesterday the water covered the floor at the rear portion of the cell, and the judge thought it would be cheaper to turn the prisoners out than to crowd them into the cell upstairs and keep half a dowen police officers busy looking after them. Officer Brannan had a small skift moored near the city jail last alight and intended to patrol a portion of his beat with the boat. DIAMOND RING LOST -- Yesterday about Boon a

DIAMOND RISE LOST — Yesterday about soon a party of ladies and gentlemon were rowing along First and Stark streats, when one of the Indies Mrs Eva Rathbun, planfully put he right hatid into the water. On out of her fingers she wore a diamond riby not fitting very snutyly and it was weshed away. There was a cry of agony but it walled nothing, us the bouble is not likely to be rescued till the water recedes. The ring besides being valued as a keepsuke from a dead friend is worth \$350.

DEATH DOE USE DOWNING —A few days ugo Cass Duwning a musician well known here, and for herly musical director at the New Park and Standard teasters, died in San Francisco Mr Downing was an accomplished musician and a very tental man, when death will be regretted by a laise number of Portland friends, A FRIEND IN NEED LTC -When the rise had nade it doubtful about the presses in Phy ORE

The hold-over senatorship dispute is assuming a political phase. Republicans so, that the best microsts of the party are involved, and are endeavoring to bring about an amicable settlement. They want it understood that it is no part of their filtention to legislate, these so called hold overs out of office, as impressions seem to have gained ground. Hon John I Gowey, chairman of the republican state central committee was saked anything. Senator Fairwenther is vice chairman of the committee He said. It is a condition and not a theory which confronts as as X Freience. Clevoland said. I think the republican state, being largely in the majority would be in lared by not complying with the manufacty provision of the constitution, which clearly direct clevoland said. I think the republican state is elegistature to divide the state central control of the constitution, which clearly direct do out duty and of endeavoring to perpetuate or selves in office. I personally have no desire to return to the senate, and would like now to be relieved of further attendance. There is no desire to return to the senate, and would like now to be relieved of further attendance. There is no desire to intention to legislate any incumbent genator of negal legislature to assomble in 1831, and elect a United States senator. It is a question of nitional as well as state interest are paramount to the interest of his party. Under the party would still have a mijority in the senate would be maintained, as at least seven the would be maintained, as at least seven the conference of the United States state. I am sure that no republican length study in the senator would be over and it case the result of the next election proves the survey would still have a mijority in the security of the cast decided proves the united state state.

astrous the party would still have a mirjority in the scanar. Ihe so called hold overs are not disposed to give up their office. Thompson of Walla Walla, quoted the constitutional provision relative to the election of senators and made this deduction. It then follows that this legislature was created by true of the constitution, and by no other an it ority whatever. The senators elected from even numbered districts have a constitutional right to hold office until the end of the third year in other years and the senator of the constitutional right to hold office until the end of the third year. The first of the tried year is given by the property of the provided the rights to hold office.

Senator Thompson's opinion is that of nearly all

the holdovers

In a special committee appointed yesterday to consider the four railroad bills ponding before the fine and drift in substitute buil met this morning, and after inviting railroad men and stippers to give their views at next Monday's meeting adjourned. After the meeting Chairman Grubb and It is my opin ion that the bill to be draffed will be my just as possible, to deal fairly between the milroads and the people. We do not want to dried the railroads. We feel that the crastitution requires us to provide for a railroad commission. I think our bill will make the maximum rate of fare too more than 4% comis, out to possible the published of the first of the first the control of the published descrimination and according to it to handling of freight. We think there is considerable discrimination and according to the rail read commissioners.

MOVING ON 10 TIE COAST.

Retrie of the M nituba Ralivond From their Falls to Sp Rane Falls

LOOMA Fob 5—[Special Telegram]—A Sponene Falls special to the Globe says The different crews of engineers of the Montana Central rair road have assembled here and are awalting orders the head engineer of all the parties is now out reconnectering the Kootenal country and those loft behind are daily expecting orders to The head engineer of all the Bartes's tow one commonity and those left behind are daily expecting orders to move that way. From information gathered here it is understood that the route of the new line has been pretty well determined upon The hone will strike westerly from near Great Halla Mout, following up the cannot of the Dearbou or Sunviver and constant the main chaln of the Rockies near order that the mountains the line will run through the Plathead severation near Fathead lake and civer and cross the main chain of the Rockies near the head of that strain.
West of the mountains the line will run through the Flaishead reservation near Flathead lake and go northwesterly to the Kootenal river. Then following this stream down for a distance, the line will bear southwesterly toward the Kootenal or cast of that point. The line at Kootenal or cast of that point. The line will run southwesterly to the eastward of Lake Pend d'Orelile, coming through the Court d'Alexa maining country to this cit. Ints will make the third trans continental line to Spokane Falls.

Buglish Currency Problems.

New York Feb v — A Mail and Express London cable says The unfounded rumor that the bank of England is going to print one pound notes has revived the take on the currency question. It is expected that Mr. Goschen will propose to tak the English one issue in order to raise money to pay the cost of reminting gold pieces. It is stated that Mr. Gladstone desires to push the currency question actively in the hope that, combined with the free education squabble it will help to upset the government. Mr. Goschen however, has all ways minaged banks and their concerns very ably and successfully and he will probably succeed in his new scheme and prevent the opposition getting any advantage on this point.

GREAT RAVAGES OF THE GRIPPE

Supervisor Reardon and the County's Bad Roads -Sudden Death of Mrs Williams-Miscollansons Local News

The assembly hall of the Portland High School building was well filled last evening with the friends and relat yes of the graduating class of 90, on the occasion of the graduating exercises of the class. The programme of the evening This contraction in space has ered necessary by the fourteen water covering the floor of the miffice and press room making the for turn this issue off on the big fall of three inches in the rise which will doubtless occur before worning, will again allow the rest to be put in operation, and it probable that to-morrow's Original that the origi

THE GRIP THAT THE GRIPPE HAS HAD The Health of the City Seriously Affooted-Large Mortality

Mr Edward Holman the undertaker says that there have been more deaths in the city the past six weeks than for any similar previous period Typhold fever has been very prevalent, and pueumonia and kindred discases growing out of pnoumonis and Diagree of many old people and the grippe have carried off many old people and feebly constituted younger ones Dr Taylor says that the grippe has undoubtedly

been the cause of the increased mortality especially in the cases of old people and in those whose constitutions are weak. Some have died who have debilitated that restem by dissipation. The physicians who scouted the idea of the die asse being an influenze, have about all changed their niinds, and admit that it is a new thing one neguliar festure is that it is a new thing one neguliar festure is that it is a new thing one neguliar festure is that it is a new thing one neguliar festure is that it is a new thing accompanied by distribute have increased from 10 per cent. as they were at first, to 25 per cent now, especially in cases of relapse. Probably half of the cases now are accompanied also by bronchuis A very distressing cough and discherge from the lurgs is also presson and in many cases severe neutralizative one or both cycs.

out toem so that a simple malady carries them off and in others provious aliments have made them an easy prey to the grippe.

There are not many new cases coming up now The change in the weather from snowy and cold to warm and moist, has been a great blessing to those with delicate or diseased lungs. Then the presence of moisture in the air is a powerful, reventive of the spread of any epidamic that is one reacon why we have sale the properties of the spread of the control of the c

the air attack that fully half the city adult population has been affected by the grippinough it very rarely attacks those under set on teen years of age. Most of the dealls of the past ten days are attributed to relapse of the disease.

THE RAILEOAD SITUATION

The Union Pacific-Condition of the North ra-

Union Pacific line from The Dalles east is all clear as far as is known and the company have had the portage railway at the Lascades put in order and have put on boats between here and The Dalles, and harrong a few hours difference in the time between this city and The Dalles will take mails and passengers to all points East on time

General Manager C J Smith was at The Dalles westerday morning and reached the Cascades at

General Manager C J Smith was at The Dalles yesterday morning, and reasoled the Cascade at noon Every effort will be made to clear the line through the Columbia gorge. A large force of ment have been sent up and distributed to various points along the line to clear away land altoe and the steamer Willamette Chief has been equipped with facilities for boarding these men and will move from point to point as the work progresses. If men enough one be sectired the road will be cleared in a week. The river is clear of ice and the boat on the middle river has made a trip from the Dalles to the Oascades so there will be no trouble. In get ting from here to the Dalles.

DELATED TRAINS ARRIVED

tations. The dangerous places are now bing planked up to protect the track from further slices.

Yesterday's through train reached Tacoma shout 3 o clock, and was started promptly south R was thought uncertain, however, whether the framsfer boot would attempt to cross the Columbia at night, on account of the drill wood in the river. The situation is also serious bitween Portland and Hunter a. The train coming in yesterday ran through the tracks along the Columbia bottom Some of the train men do not think more than come for the train can be run north unless the Columbia ceases to rise. The two torough trains ran from Ellensburg together about twenty minute spart a transfer naving been made in them of luceday's passengers baggag, and mail with a big rotary plow ahead of the first section. The company will spare no pams or expense to keep the froad open. Latest advices report the line all clear from Tacoma to St. Paul. The Northern Penfic through train cannel in at 12 40 last night. Mr Hawkins, who got on the train at Sprague, was at the Merchant's, and sand in conversation with a roportor, that the water was very high along by Passeo and to the westward where the smake comes near the track. Trains are here run very slowly as a precautionary measure. The snow is all gone east of the Cascades in the mountains the danger is from snow. It was quite an exciting passage across the Columbia, though no diffusion was seen. The river was not thought to be in a set them south made from Hunter's.

THE SOUTHERN I ACRIL SEAD.

THE SOUTHERN FACIFICS HOAD

Information was received vestering which justified the Southern Pacific (copie in announcing that they will run trains to day between Fortland and McMinnville each way. Construction trains are now at work on tach side of the river. On the West Side that are workly at the bouth Yam hill bridge where a sixty foot trains has gone out A span is gone at Rickiteal. Supermiendant of bridges and buildings within in A cru idahl is at the first training of the second of the second in the lands of the second of the second of the lands of the second of the second of the training within the second of the secon THE SOUTHERN FACIFIC S ROAD

THE RIVER GIVES UP ITS DEAD The Body of John Donovan F sh d Out of the W llame to-The Verd of

William Daily found the dead body of a man floating in the drift wood at the foot of J street in hast 1 ortland. He attached a line to the body and julied it to the incline at the foot of histreet and there took it out of it water as the county coroner could not reach the East side Justice Bullock summoned a jury and held an inquest composed of h. J. Sprague W. C. Morgan. W. C. Everest William Holder man, J. Howe and Michael Dunne. A number of witnesses looked at the body and it was recognized as that of John Donovan, and according to the evidence of Doc Reid he was drowned the old steamer Wonder.

THE LERDICT The jury rendered the following verdict
In justic court for Fast Port and precinct,

SUDDEN DEATH OF AN OID IADY Mrs Williams Thrown From a Bugey vid S on After Expires

Mrs Williams an old lady who has resided at Farm agton Washington county died very and-Farm agron Washington county died very sud-denly yesterday afternoon about six miles from the city, under very reculiar circumstances. Mrs Williams, it seems was driving along the road in a burgy when the animal took fright at some object and suddenly swerved. Mrs. Will iams was thrown to the ground, but any arently did not sustain only sor out hipures. Just at that time Michael Amacher a young man cane along. He assisted the old laay into the buggy from which she had been thrown file horse not having run away hirs. Williams requested youn, Amacher to drive her to her home at Farmington, which was about twelve miles beyond. This request he complied with Very soon after Starting the old lady died while driving along the read Just about that time Amacher met F. W. Godfrey and G. Miller who came to his assistance. The young man was holding the lifeless body of it e old woman in his arms. She was quite dead and had apparently expired without pain. Amacher states that Mrs. Williams told him she felt all right before she was helped into the buggy but very soon sam down and died. The three men brought the body to the city, to the residence of Mrs. Williams Caruthers streets. fame was thrown to the ground, but at arently

below town, has washed out and some gully. The Ceruclius pass road by the old Holbrook place is reported as impassable. The winding road leading toward Scholla ferry is reported washed out in a number of places in some of them very badly.

FORTLAND AND VIOLNITY

TOO MUCH ANTIDOTS—It was not alone on ac count of the crowded condition of the juli that Judge Tanner discharged the drunks yesterday. There have been a great many working in the water who, imbued with the popular idea that whisky is the proper antidote to water became as heavily loaded with the antidots inside as they have been furnished with the weaker liquid out side. Nearly all drinking men have imbibed recely and it was but natural that many have tuken a drop too much. A number of nicely dressed bookkeepers managers (tc., have been laben to the police station, sobared up, and sent home, minus a \$10 gold piece. Some of them had a considerable amount of money commercial paper and jewelry on their persons.

Apperciated Entenprise—The Pacific Postal

which filled the brick sewer Abble Wallace who keeps one of the dive eigar storespon? Cond street ne r D was arrested yeterday on complaint of John Hokesen, who chargos her with stealing \$87.60 from bim Hokesen who is a railroad luborer visited the woman two or three times and on his last visit, while he was talking to the fair Abble, she slipped her brud into his pocket and took all the money he had \$37.50 fbh refused to give they and he caused her arrest. The woman admitted taking the money and said she had taken a ring out of punw with it. In default of ball she is in Jail.

DIAMOND BING LOST—Yesterday about moon a party of ladies and gontlemen were rowing along First and Stark streets when one of the ladies. Mrs Fva Bathbun playfully jut her right hand lite the water. One not of her fingers she wore a wrashed away. There was a cry of agony but it availed nothin, as the bathbe is not likely to be reserved till the water received. The ring besides being valued as a keepsake from a dead friend is worth \$3.0.

DEATH one then deterred the hards at Death of Case D whing a musician well known lare, and for medy musical director at the New Lite and Standard theaters died in Ban brancisco Mr Downing was an accomplished musician and a very guidal; an whose death will be regretted by a latechtumber of Portland friends.

Sonator Thompson s opinion is that of nearly all the holdovers

In a special committee, a pointed yesterday to consider the four rathroad bills pending before the lones and draft a substitute bill not this morning, and after inviting rathroad man and shippers to give their views at next Monday's in ting adjourned. After the meeting fobilition Groups and I is my opin in that the bill to be drafted will be not unant or this said. It is my opin in that the bill to be drafted will be not unant to cletch the rillroads. We feel that the ensituation requires us to provide for a railroad commission. I think our bil will make the maximum rate of fare, not more than 4½ cents but it may be 4 cents. The principal feature, will be probablition of discrimination and externion in the han filling of frequit. We think there is considerable descriment afternity to the valuable of commission.

The in a to-day a used the judiciary commission.

English Curre may Proble as

New York, Feb 5 - A Mult and Express London
cable says. The unfounded rumor that the bank
of logiand is going to print one bound notes has
revived the talk on the currency question. It is
expected that Mr. Goseben will propose to tax
the English note issue no order to raise money to
pay the cost of romint ang gold pieces. It is stated
that Mr. Gladatone desires to push the currency
question actively in the hope that, combined with
the free education squashole it will help to npeet
the government. Mr. Goseben, however, has all
asty smannaged banks and their concerns
ably and successfully and he will probably suc
cod in his new scheme and prevene opposition getting any advantage on this point.

VERY LITTLE DRIFTWOOD IN THE RIVER

Powers Gathering His Forniture-Situation 45 the Water Works-The Government Floet -Incidents of the Day

Yesforday the river situation was encouraging for the first time since the water began to rive. The flood came to a standstill Wednesday ovening and all day yesterday the water keet falling slowly but surely. It is estimated that the fall yesterday was fally 8 nuches and the outlook is indeed encouraging.

The sun yesterday morning dawned upon a clear sky. A few fleety clouds floated slowly about through the blue heavens, and later in the day and for a few hours in the afternoon the darkened heavens again frowned upon the tranbled waters of the Williamette.

During the greater part of the day, however, the warm rays of the san found an unobstructed.

the worm rays of the sin found an unobstructod passage, and people found it pleasant to be out. The sunth me coupled with the knowledge that the nator was receding gave new hopes, and nil felt that the worst was past.

While the interest in the turbulent river and the flooded streets still continues all sunkely has gone, and the novelty of the unusual gene has in a measure worn off. Still the streets were crowded the entire day, and thousands of people feasted their curiosity on the raging waters at all hops with high top boots and boats were as numerous as eyer and beyond Pennoyer's mill the plet water along the shore was filled with small quiet water along the shore was filled with small raf s, vision the occupants propelled with paddles

and long poles
Woman and children stood in groups along First and second streets watching the un which it never wanting on such occasions. Boys got then feet wet as they always will and mon, surcharged with enthusiasm, knocked each other about in the water as though they were mud seals, unmindful of the consequences to their health. Both bridges are still standing and it is believed that all danger is past. In fact the river above the Vorrison street bridge is so clearly watched that no hims but some unforeseen emergency could give use 'o any further apprehensions for its safety. and Second streets watching the

its safety

Up to the hour The Oragonian went to press—

4 M—the river had receded about eight inches. The highest point reached bout eight inches. The highest point reached by the water was twenty-eight feet and six linches. This would leave the singe this morning at press hour twonty-seven feet ten linches.

Owing to the great height of the water in the Columbia (a very unusual occurrence for this season of the year) the Willemette will probably full very slowly.

THE STREET CAR LINES

THE STREET CAR LINES
The electric cars run as far north as Washington, while the Multinomah line is forced to make
Second street their terminus Owing to having
only four cars on the line the company has not
been able to furnish as prompt service as they destred to resterday afternoon they moved their sired so resterday afternoon they moved their two open cars from the nower house up to the West Side railroad and ran them he over that road to-Mill street, where they were taken off and run down to Second street. Hereafter trips will be made more frequently over the electric line. The first street cars made regular through trips, the water between Oal, and Alder streets coming up to the floor of the cars. They were liberally partonized by sight-were as they softered an excellent, though at times summethat damp, they of the flooded district.

The Third street line has not been troubled by the water and has been running regularly all the MUTUAL HOSPITALITIES.

All rivelry in business matters was forgotten when the water came over Front street. Those who were out of the wet extended invitations to their less fortunate brethren to come and visit them tail the trouble is over

The London & San Francisco bank 's enjoying the hospitality of the Portland Savings bank. The Oregon Astronal bank is spending a few days with Ladd & Tilton's bank.

days with Ladd & Tilton's bank
The Northwest Loan & Trust Company is visiting the Ainsworth bank
The clearing house is doing business in the parlers of the Commercial National bank. The
Scarances yesterday amounted to \$93.263.63, and
the balances amounted to \$2.283.35. This does
not amount to much in the way of clearings, but
the balances would make a newspaper man
happy.

THE MORRISSON-STREET BRIDGE. Opened to Fost Passengers at 11 C'clock Yesterday Forenoon.

Testerday Forenoon.

the bridge entreace, were allowed to remain in groups and whot, at various linervals along the malling. At 280 o'clock a funeral procession seed from the East Side consisting of a hearse and seven coupes, and were allowed to pass of the West Side. Within half an hour the o'copputor was extended to light rics, with the provise that the teams walk very slowly. Tamedlately following the order, and up to a lake hour, a continuous stream of buggies were coming and going across the iron surfaced within the day, although a thin struct the bridge during the day, although a tind struck the bridge during the day, although a lew bad looking trees came down and were car ried under the bridge without striking. Toward evening a small fir tree came floating down with the current. A bunch of heavy roots held the the current. A bunch of heavy roots held the tree boright, protruding pernendicular from the surface of the muddy water about thirty feet. It struck the bridge, and though shorn of its evergreen branches, it righted used on the other side and went floating swiftly toward the Columbia. The current of the river has been captibly single-ned Yesterday afternoon Mr. F. Wilkiams and Mate Stevenson of the State of California, armed with the shup's log, selected the swifters place in the river and measuring the current, the log registered a speed of six knots an hour. It is thought that yesterday the current was a full knot stronger.

Three Worshousek Captured by the Steamer Northwest

In F Powers will perhaps be the beaviest loser Portland by the figod in addition to nearly in Portland by the floor. In addition to nearly 800 000 feet of lumber, which floated off and the greater portlon of which was lost, one of his ware-houses filled with high preced furniture was shat tered against the Morrison street bridge and only a low loads were saved

Captain Actions was the means of saving three warchouses, which are now lying out of the current against the P. & W. v. railway track. The machine shop proper, which was the first to float

orthwest, Captain kellogg put on full steam and the exciting chase commenced The North vest was not long in closing the gap, but she could not make fast to both buildings as the

could not make fast to both buildings as the rapid current would have carried them all to cer tain destruction against the bridge. One of the warehouses went crashing against the bridge, while the other was fowed out of the current and fied to the track of the P. W. V. Ry.

The warehouses which came down in'er were treated in a similar manner. They are all fastened to the railway frack, and yesterday two crews of men were at work removing the furniture. The Northwest is being loaded with the furniture from one of the warehouses, while a dray was removing it from one of the others. fray was removing it from one of the others which is so near to terra firma that the men can Mr Powers's mill is still out of danger. It is securely tied to second trees, and no lears are en

Two I cidents on the Front Street Grand Canal

THE OREGONIAN office, being a center of ordinary travel, and in the deepest water, was the scene of many aquatic incidents. Several boats were plying constatly between Stark street, just

columbia, though it acriously interfered with the intripations of the crowds of admiring spects. pedestrain and navigating helpers, he wa deatly took passage on the next regular boat

Equally thrilling, but more disastrous was the voyage of his Frank Cusick of the Telegram, who came down Stark street a half hour later sturdily bending to the oars in a craft which under less shows but more trustworthy pilotage had carried three people. In a strong eddy however, at the corace of Flont, the boat lost its posse and the boatman his confidence. A heavy sea was shipped without delay and the boat swung round, how down stream. With rare presence of mind realizing the dive extremity into which he was thrown with the boat gathering water every moment, the intropid marker rose upright in his seat and hurriedly began divesting himself of his outer coloring, proparatory for the Intal plunge. Letting go of silk umbrella, and bearing aloft manuscript and overcout he emerged from the

THE "GOOD SHIP STATE"

Unloading Her Cargo Under Great Diffi-

Business and its usual busiling and exciting genies, at the various wharves, ultit the exception of Ainsworth dock, is of course, very quiet. With ittile freight that happened to be on the various docks has given employ mentte a number of workinen—remering it to places of greater at ittude. The glass belonging to whittier, Tailer & Company which came from Heigium via the ship Fatterdule, And a part of which was put on the dock at the foot of B street, has been transferred to places further back from the water front. The water having showing a disposition to recede to clutter having showing a disposition to recede to clutter having showing a disposition to recede to clutter having showing a gia mand accordingly retorday moralin, a largugung of longshoremen were put to work unload ug the steamship State of California which lies alongside the Ainsworth do. I have versal being so much higher than the dock, the track-thad to be pushed up hil rather than 'down grade' The freight has writisen up by the steam clevator from the main latter than 'down grade' The freight has writisen up by the steam clevator from the name hatch was let to the floor of the dock nelow by means of a clute similar to the kind used to load ships with wast On the log floor of this dock were valking hundreds of business men, who, in their conversation made themselves heard with dishealty above the themselves heard with dishealty above the themselves the first which is belief to have a sady berefit of pillings and is othern se hadly damaged, but the central foundations remain unseathed.

Among the many who have freight about the busiest scane of the Ainsworth dock ever presented The fronting of the Ack is sady berefit of pillings and is othern se hadly damaged, but the central foundations remain unseathed.

Among the many who have freight about the steamer, and are annious to get their goods were them mangers of the Varquam Grand thecator. The State brought from San Francisco all of the steamer, and are annious to get their goods were the many of

About 5 o'clock Wednesday night the government anaghoat Willametto arrived at Steffen's with barge No 4 the first of the government fleet brought bed! Captain whiteomb reported that the fleet had been nearly all overhanded Two dump scows will almost cartainly be lest, and possibly the store bont, which has also some down the river. It was loaded with a good many supplier. The bonts that went down were five dump scows four other scows, two quarter-boats, the Willamette-Corvellia and Cascades; two desdess, one the Sentiam, and the steam launch General Humphrey. The time phrey did not no far, but ledged and was subsequently secured. The Willamette steamed up as soon as possible, and has been rounding up the deet. Fitteen of the boats were moored at one

place or enother between here and St Johns, with a watchman on each Captain Walt Simb experienced considerable difflerity in getting up with the large on account of the swift current. He had to take provisions acquired to the writers watchmen on the heats of getting up with the learge on account of the swift current. He had to take provisions around to the various watchmen on the boats of the feet, and purposed lying in the Columbia until morning. The Corvallis was-sund and it e Santiam Injured by the logs. The logs coming down is wont caused the stampede. There would have been no trouble with the fleet otherwise, as they were well ited up Some of the boats were tied up as far down as Gillihan.

Mr Sleffen thinks his less will be about \$500. The keel of the big new Union Pacific steamer is submerged and the Calliope, out of which he was going to make a new boat for the Columbia Transportation Company is badly stove in and capsized from the action of the logs.

The Williamette began at an garly hour yester day bringing up the boats. "Log got the Careades up about noon. She is uninjured. The Corvallis has sund. I wo more barges were brought up in the afternoon, the Williamette coming up for the night at 6 o'thlock. The Lincoln has been working too, though she cannot do much in the current.

too, though she cannot do much in the current The workmen are now busy calking the barges The Looks and Ockinhama came up from their

The Cooka and Ockiahama came up from their down the river labout about 5 o clock. A reporter obtained from Captains H Emplins and W H Patterson some interesting actalls of their urdu one and valuable efforts. It seems that when the floot went out, all the steamboats except the Liucoin had their machiners more or less apart for repairing The Cooka and Ockiahama, therefore had to round apaul secure the fleet. A log got in one of the chainholes of the big government deedger, the Osgod, and she amy vestering forenoon. She can be easily repaired when the water goes down the Fannie, Maria and Toleda have been working at the mouth of the Cowlitz. They finally decided to lot the logs go through the mouth of the river so at to save the beam. They were easily as curved a few miles below on the north shore of the Council.

Columbia.

In fact nearly all the logs going down the river have been saved. The felephone came up last night and the passengers say that Reeder has got farmiture enough to open up about a dozen beta!

Largo quantities bowever, went down and some clear out to sea.

The bark Charles Cotesworth got in over the bark wednesday night. She is leaded with tin, sait crockery, etc. from I verpool.

LOGS AND LUMBER. Losses Will Not Foot Up as Heavy as Was Expected.

As an Origonian reporter was meandering along the track of the P. & W. V. Rv. yesterday afternoon, surveying the buildings and factories wrecked along the river above Jenterson street, he encountered Governor Pennoyer and one of the Smith brothers discussing the flood and the probable extent of the losses. Smith Brox, who have lost about 20000 feet of lumber, feel confident that most of their logs will be recovered. They are not giving themselves much worry and will consider themselves lunky enough even if they do consider themselves lucky enough even if they do not recover any hone of their lumber has thus for escaped, and the mill and yard are still high

and dry above water
"What do you estimate your loss at? the gov ernor was asked

'We have no reason to complain replied bla 'We have no renson to complain replied his excellency with his usual good natured small would probably be able to capture most of our runaway logs and the lumber that has been swept away does not amount to a great deal. A few weeks of cutting will more than replace all that has escaped. It is true that our lumber yard is considerably dilapidated but all damage can be easily repaired. This flood is nothing after a person gets used to it. We have had them before the loss of the Pennoyer Mills Company is greater than that of smill Bross. Nearly 1000 000 flood logs are considered than that of smill Bross. Nearly 1000 000 flood logs are considered to the confidence of the co

Taking advantage of the absence of rain and the bright, thereful day, the officers of the Patterdale put the ship's seamen to work on the vessel's how, scraping the rust off the steel plating, which had accumulated during her long lovage across the briny oceal from far off Belgium Several more sallors were engaged in pelinting the upper works a bright red color. The damage to the vessel by her recent attempt to rim away will amount to very little as nothing except the "grigerbread work around the sides was injured.

SITUATION AT THE WATER WORKS

Superintendent Smith has a large force of men employed at the pumping station at Palatine hill. The furnaces are protected from the food by a buikhead, and the water is three feet higher than the flies. The pumping engines are twenty feet below the present water level. The water is forcing its way in through the bricks and at every stroke of the pumps the walls jar. If they every stroke of the pumps the waits jar. If they should be crushed in it would be good by eto the engineers. A land slide moved the main between the pumps and the upright from main above transfers in right in it and entsting it to less at the joint. A bug chain has been placed around it to hold it in place, and a gang of men are at work removing the slide. There are some shaty men hard at work out there, and a big tent has been put up and a regular camp star ed.

The old water works which have been held in reserio are a total wreck. The pump was set moving to have it in readiness that the pressure of the water burst the floor up and filled the pump chariber. Inch. Powers furniture factory came down and broke the undu leading from the pump and it at settled it. Governor Pennayar as djoblingly, that he should sun the water committee for damages because the pipe broke and let the ractory into his lumber yaru.

EAST SIDE WATER NOTES. The City Will Sustain No Beave Dam ages by Lonson of the Flood

The ! ridge on the Wilwankee road just north of

The tridge on the Wilwanker road just north of Milwrukee has been washed away, and the only wolly winch Milwrukee can be reached is via Wilsburg W. I kinn, an expression, went up there has twennesday and when he returned attend the whole country is under water. I was reported that the Standard mills building at Milwankee was in danger, but it held its own against the fixed. The water came up above the second floor and then the owners stoped hundrings of jons of a nd on the third floor for additional security. A large logge of men was employed, and the stahler Volunteer was chartered to convey the sack of gand to the building. The building was struck by the box factory that came down from Oregon City and received a fearful jar.

The southeastern perion of East Portland which was so badly deluged, vesterday morning was entirely free from water and with the green grass growing, gave every indication of spring and little of the flood.

The Stark stroot ferry portloon is pulled well up the incline and, outside of a few boards, does not seem to be much damaged. The incline of the Jefferson street ferry on the East Side is totally rulined, and will have to be rebuilt. For more than 200 feet i one the shore is a compact mass of driftwood and saw logs.

The milk men on the East Side have had a hard time since both bridges were closed to teams. This compelled them to carry their cans of milk across the bridge by hand.

East Portland is coming out of the flood with out greet damage. The greatest expense will be

across the bridge by hand.

Enst Portland is coming out of the flood with out great damage. The greatest expense will be in removing the debris from the city front and replacing the outside pillings of the wharfs.

The steamer Manzantila in the Willame to ship. vard, is all right,

INCIDENTS OF THE DAY. The muddy waters of the Willamette may not be polson, but for the past few days they have been "Rough on Rats."

The breat in the hydraulic mains was caused by the water floating wooden eldewalts through which bydnants passed. The flanges on the hydrants stood the pressure and tore the hydrants come to main. It is the hydraulic passes from the main.

The high water mark obisoled on a stone in the foundation of Ladd & Tillon's bank has been watched with interest by many since the water watched with interest by many since the water came near? In fight it was hardly possible to get a gimple at the mark a great deal of the time from the number standing and pplashing around in front of it. Yesterday morning the mark was about an inch below the surface, which will

Now hold still sa of the photographer, who was not a little suffice with the charms of his subject. The young ligh Jooked divinely sweet, and every one in the crowd held his breath. But just then an unlessing any essman with not one of walrie impass in his sorder was almost divinely always almost derowned. The horse sphesified that water all open for a slong and the young lady was almost divined the transfiguration scene in a protracted tablean. Her photo may not look natural.

A LONG, PERILOGS RIDE

A blver Trip From Albany to New Era

In a Siff

(From Yesterday's Thool Edition)

W ham Steel and Mr Whitney of the Southern
Pacific, Lave striped here from Albamy, the
first arrivals from that oily since the cloung of
railroad communication. They came as for as the
landing three miles, show New Ers, in a skiff
country Mitty live miles. "La hours. The only
touble they had was in passing sueen, clute, where things looked a little "keery"
Mr Whitney says they saw more than a hundred
houses and barns alous the river bottoms.
The first fifth fat independence is partially swept
sawy and there is a fifth loss of hardwood lum
ber there. From the landing they made they
walked to Oregon City, crossed the Clackamas
bottom in a boat and tramped to the city getting
here about anyper time.

Oregon City Enterprise Sunday night about 7 o clock Mr. Blumbach, of Sunday night about 7 o clock Mr Blumbach, of the Oriental hotel, a darkey and one other man attempted to cross from Clackenas bridge to Orogon Lity. The water was at least twelve feet deep on the flat, and the team tatched to a back soon found likelf beyond depth. The driver attempted to that common and the team became could go no further. One of the man about up on the hind end of the back and the climbed on the hack of one of the horses, while the darkey left the right entirely and made for an apple tree which he climbed. They called instity for help on a succeeded in attracting the attention of Heary kachand Heary Humler and fras benth, who instended to their resue. The men were nearly dead, the one on the hack having only his head above the water All linads were helped into the boat. After landing the almost drawed men the rescuers went back and out loose the horse, which both swam albord apparently not much the sporse for wear.

LATE, N. WS. OF THE ACCIDENT.

The Value of the ACIDENT

The Union I melfic treatic which caved in recently and caused such transmess loss of life presented a spery and d smal spectacle when visited on Wednesday afternoon by a representative of The Ongoenian. The treate is a total wrick Some of the broken limbers have fallen into the creek below beneath the caboox and are planed to the carth others have floated off and joined to dirte and floating logs that the Columbia every where bears upon its muddy surface. About the wreck may yet be seen remained of the civility of the dead unfortunates. The treatic was about 100 feet in length, forty feet in the center of which went down with its human freight.

center of which went down with his minimal freight.

"annuel Waters of Forland, states that he left that elly-on business for Hood R veri ridan and that on "attirday the very day of the catastropho the engine language mail car exhoses and Full man crossed the fatial treatile in anfety three times. He and a number of others escaped being in the wreck by the fact that it was thought best to return to the (assendes locks to provide the passengers with food On Fuesday at moon the caboose was it med and another dead bod's wastaken from the week william (ole one of the men killed leares a destitute wife and two helpitess children. On his person it Su was found, which was all that he possessed.

possessed. A Jensen, the section foremen, who cultered a fracture of the skull, has since died. He left cieven children. The scene in the car and caboose that went down from the trestle must have been aponiting band one of the wounded men row lying at Cascade locks.

others cursed fate luck and God and every nerve was virinked to release themse ves.

An engineer was hurrying accreai physicians to the scene of the accident. The treatle at one point appeared shaky. He made his peaseners got off and walk around it. He backed his engine half a male opened his firstile and let her fly She wenthike hebitaring over the spot of danger eleated it and brought the physicians to the hed-side of the dying. It wounded in time to render at lenat some aid or lesson some agony and publication to the conductor Davis who had but recently been promoted, had two trunks on the demolished a boos. To day a pair of his trousers were found finating in the water. A small purse was found in the pocket, which contained it cents. Fourteen of the wounded men at he est account were lying in the government bunks at Cascade looks. All is being done for them that kind hearts and madical skill can do.

and malical skill can do
There is no bitter feeling existing against the
company, the regord of which has been circulated
at the balls. It has been stated upon the highest a therity that the Union Pacific will deal
just ja and fairly by those who have suffered on
its road

HOS PWAED BOUND HON PWARD BOWND

return voyage to Portland The scene in the main cubin was the familiar one of the overcrowded vissi! I cople were soon bying every where. One could not more through the forms on the floor for feer of transling on weary and prestrate humanity. As many as possible were made comfortable, the ladies were all well cared for, and most of them were given berths, which the company had taken precaution to resorte for this contingency. The passengers who had to wait over the bad portion of the portage road encountered but small difficulty, although it seemed trying to those who were not strong and healthy. The company finds if necessary to keep one boat constantly at the Lower Cascades and another boat will be put on the line at once.

Among the passengers were George Sheppard who had been engaged for twelve days in reaching the Dailes, from a smallimining town in Idaho also Walter L. Durrell, who had also experienced much de sy. C. S. Calef, formerly of Eugene, a week ago heard that his father was dying and started by home. But since that time had heard nothing.

The Luthne has struggled har i against the reg-ing Willemotice since leaving Vancouver The current is dangerous and headstrong Few par-ties abound hip have undressed or closed their eves left forty-eight hours. At Vancouver the river is high and still rising rapidly

The Laring experienced great difficulty in get-ting up the river. The best would proceed a short ting up the river. The near would proceed a since distance and then he compelled to back water to get rid of floating debria. During this while the current would carry the steamer back in her course at those, great distances.

SMALL LOSS UP THE VALLEY

The Disorderly Umpqua Not Nearly So Full-Reschurg Semewhat Diefigured, but Promises to Recuperate.

ALBANY Feb 7—[Special Telegram]—The river has fallen four and one half feet at this city. Business, which has been paralyzed by the flood, is being resumed. The damage to property in Alhany is slight. It includes only a few old buildings a portion of the old Montick milks and the Union Pacific wharf, besides damage from inun dation of basements. Several county bridges are gone and a considerable amount of stock was drowned along the river.

Frome City, Teb 6—(Special Telegram.)—
The river is falling clowl, The highest mark renched was twenty two feet above low water Tro large bridge near Springfield went out Monday, also a part of the bridge near title city, entailing a loss of \$20-000 A few small buildings in the low bottoms were washed away, and a large amount of cordwood fencing and other material, also, the aggregate losses figuring many thousand dollars. The city of suggere did not suffer any loss from the river and but slight loss and annoyance from surface water

Surface water

Convaries Feb. 6.—2 15 A. M.—(Special Telegram].—The city is feeling jubilant over the feet that last night the river fell thirty-six inches, and is now going down in the rate of three inches pur hour. A light frost was on the ground at daylight and the and was shining brightly. The sky is perfectly clear, and a northwest wind prevalts. The Oregon Pacific train will arrive on time.

McMinnyille, Or Feb 6-9 15 A M - Special ulc-Minaville, Or left 6-9 16 A M-[Special Telegram]—The river fell nineteen inches since 5 o clock yesterday, and is falling now quite rapidly. To say the situation causes joy does not express the prevailing securiment. The say is as blue as in summer, and a warm south wind is blowning. Independence, Feb (-9 18 A M - Special Tel-

one to be larger and before the feature of the decision of the statement o INDEFENDENCE, Feb I-9 if A M — Special Telegram]—The Willamette fell twenty four inches since last night, and is now receding at the rate of two inches per hour. The general impression is that within twenty four hours it will be five feet lower. The weather is warm, with a clear sky and a south wind.

From Yesterday a Flood Edition
Orngon City Feb 5—[Special Telegram]—The water has been falling since 5 c clock at the rate of one finch per hour. The flood has equaled that of 1865 according to the highest measurement of that flood, while on the flat below fown it has been two feet higher. The damage here is great but the principal mills are safe, which demonstrates the fact that buildings can be constructed here to stand floods. The pulp and salphite mills are standing and are perfectly solid, with the exception of the bolter room which Mr. Sullivan states was injured by the breaking of the boom y exterday, and as it is brick he expects it to go out to night. there. Salem is without was solul.

From Yesterday's Flood Bate.

McMinnwiller, Rob. 6—Josephi 76

The first engine on the west sim and had alnoe Saturday arrived here but hand since Saturday arrived here but cannot go further south for west but cannot go further south for west until the South Yamhill India e meet river here is falling very slevy, suit about three feet helow high water.

About half of the fown of Whester is about three feet helow high water.

About half of the fown of Whester away, including Hendrich's waters.

O(00) bushels of wheat. The load year well to do farmer living on its hard will anough the Willamette is greater farm well to do farmer living on its hard will and the same did.

A man named Millor, with every lived on the same island, Subjective lides of the same island.

Sullivan states was injured by the breaking of the boom y exterday, and as it is brick he expects it to go out to night.

Holes were cut in the roofs of the sulphite pulp mills to-night to release the compressed off when the boles were cut hot air rushed out with terrific forc.

Last night at 6 o'clock the Wilamette Falls Excelsior Company's whethouse, containing sixty tons of excelsior went out and this morning the rest of their buildings dirited away. All were light and not well lastened down. The O R. & N.Co. s office became loosened from the warchouse and went down.

The warchouse was loosened and separated from the Imp I aimill two inches, but it seems to-

to cook PM the report was brought n to

At a cace P so the report was brought not the Lurihee at the Lower Cascades, that the cut and slice had gone out again and all hope of util ving the portage road on Wednesday night was given up.

A later report came which was finally ver fied that a temporary patch had been effected in the Cascade portage road and that the passengers would be transferred by that route to the Harvett Queen. The only disagreeable part of this arrangement ley in the fact that the travelers would be compolled to fool it over a small part of the way where the broken out could not be repaired without too serious a delay. This was agreed to and the cast bound passengers accepted the time?

Thacks of the two patches.

AN EDITOR'S BOLD ACCUSATION.

Work for Another Ka semining Comm tree-The Bession Premises to List Till All Fool's Day, at Least

Olympia, Feb f - Spec of Telegram !- Inother OI META, Feb C — Spec of Talegram]— inother sensation has spring a leak Birry or attempt of bribary is the charge this time and the sauchly talked of Hill code bill is the thane it will be renormbared that to the surprise of all, it is bill passed the house a few works ago and is now before the senate There had be a vigorous of positioned the bill but all of a saudient is subsided and very little was said or the interest of the Lauroft-Whiting Company of Sur Princic cowhen it was on passing in the house A few days latter the story got out that the passage of the bill was effected through a compromise between O C White manager of the Sinte Printing Company and F G Sauborn the tolby ist of the Bancroit-Whiting Company. The terms of the agreement were said to be these.

agreement were said to be these. The printing company agreed to withdraw its opposition to the code bill it e ban Francisco company a pat measure and Samborn agreed to draw his forces off the two sensite bills ere thing the office of public printer and figure, his compensation which it is generally concided are in the interest of the biase Frinting toompany, and white is the prospective state printer.

The next stage of the gramp was the sait board to

pensation which it is generally concided are in the interest of the bate Frintis Company, and White is the prospective state printer.

The next stage of the game was the anti-boodic investigation. Representative Judgen of Pierce had heard the stong of the deal between White and Sanborn, and when Moultray offered a ree in tion providing for an investigation he submitted an unendment instructing the committee to investigate in addition to the anti-boodic story the story that certain members had swipped votes on the printing bit! Indea; that he was refused to command Representative Brown, of spokane to answer questions proposed by the committee and instructed the committee to report the next day Representative Indon of Pierce received a very interesting letter from T. (Nicklin of Whatcom formerly editor of the Reseiffe there. Nicklin wrote that is had read in the rewesters that Judson winted to investigate the printing story at 1 c. (Nicklin the found throw some lieth on it. He went on to say that he met Judson told him that he had been offered \$2x\$ for his vote on the Hill code bit! but as it was an obnex tous measure he would not support it. Nicklin added that Judson of Whatcom during the hondrys and Judson told him that he had been offered \$2x\$ for his vote on the Hill code bit! A which is not support it. Nicklin added that Judson of Whatcom for in the Hill code hill, and the question naturally arose in his mind. What became of the \$20\$ Nicklin concluded by exying that he was recary to substinctiate the contents of his letter and would come before the investigating committee held its his meeting and prepared its report Judson of Pierce who was a member of the committee showed hicklin's letter to it 9 other memb is 2 he of the former.

showed hicklin's letter to the other memb is They decided that as the house had refused to compel witnesses to testify there was nothing to be obtained by pushing the investigation. Jud son of Pierce afterward shower. Mcklin's letter to Judson of Whattom. The latter first wanted the letter. Then he asked his Pierce country name anke to burn it. Judson of Pierce refused to suranke to turn it. Indson of Pierce refused to surrender the letter and afterwar i burned it. Mean
white Editor Niekin has not been idle. He has
written so one of the correspondents who hand ed
the anti boodle, story. It is a dullicate of the let
ter he wro e to Judson of Pierch. This last letter
has been shown to the Pierce county man. If
Judson of Whatcom made the statement Mhiel lin credits to him some one has been gui;
of bril ever attempted bribers, and another in
vestigation is in order.

The story is the topic of conversation to night.
Every body is talking about it. Judson of Pierce
being seen, admitted that ha had received a letter
from Nicklim and that Judson of Whatcom asked
lim to b itn it.

bim to birn it

Judson of Windcom was arked for his store,
Hosald So far as my voting for the HOI code
bill is concerned that is a matter of record but
as to recoving or being offered 3.5 that is false
No one has ever offered me money for my vote
and I would not take it it it was offered. I had
a conversation with Mr. Nicklin but nothing
was said about the Hill code bill
Nicklin is a political enomy of mine hence his
story. He folled of the republican woming ton. story He falled of the ropublican nomination for county clerk of Whatoom county last fall, and then threatened to saftirate the party through his paper He kas kept his promise It is true that I did set Judson of Pierce to burn Nickiln's letter The anti boodie investigation was pending at that time, and I was afraid the letter would fall into some reporter's bands, which would make me

some reporter's hands, which would make me figure in a new sensation '
'D d Mr Sanborn ever ask you to vote for the code bill? he was saked.
No sir I don't know Mr Sanborn '
I' G Sanborn, tressurer of the Bancroft Whit ney Co, was seen in his room at the Charlton house and the contents of Mr Nicklin's letter told him He said I deny buving ever met Mr Judson or having personally or through friends ever offered him one penny to vote for the Hill bill. The charges are totally felse, and I emphat all. The charges are totally false, and I emphat

cally brand them as being such When asked of his compromise with O C White Mr Sanborn replied hever directly or indi-rectly have I approached Mr White in regard to withdrawing my forces or asking him to withdrawing my forces or asking him to withdraw his 1 do however admit of having said to everal of his friends that I thought if he hung his bill on the hook for a short time it would

The house and sonate played tag with each other on adjournment resolutions to day The senate laid the Shaw resolution, providing for final adjournment on the table and the house tabled Houghton's concurrent resolution profile iting the introduction of new business after February 12.

Colonel W W D Turner of Spokane Palls brother of Judge Turner has been endotsed by the Spokane delegation for the newly created superior judgeship of Spokane and Stevens coun ties Petitions favoring his appointment are cir eulated in both houses

The house resumed consideration of Herren s state university bill this morning. Evens sur prised the house by moving to strike Latin and Greek from the list of studies. He called the ciassics unnecessary luxuries Let us get rid of Latin and Greek and have a free school, he said Latin and Greek and have a free school, he said Latin and Greek and have a free school. Clark and Greek and Latin nearly broke him up when he was a young fellow and he hoped Washington would set an example to the rest of the world and do away with them Lyans a mendment was voted down 30 to 20 All the chairs provided in section 15 were eliminated and it was left to the regents to provide professors in the provision recruating the special tax and as propriating the process of the support of the university was also striken out and the institution is to depend on appropriations for fits aupport. The bill gras then passed. It up profitates \$10,600 for the university.

Terrible Explosion Deep in an

Who Are About to Strike IONDON Reb 6 - [Special Telegram] - An ox plosion commend to he m a cellery at Abri sychiam in to mouths ire ten miles northwest of Newport. Three bundred miners were im

systems in the mouth; for the miles northwest of New port. Three bounded miners were imprisoned, and for several tours no commune a tion could be had with them. An opening was smally effected at noon. Two hundred of them have been reached. A number of those them cut were seriously injured. Recuing parties are still searching for those remaining in the mine. It is forced that it will be a possible to rescout the miners who are still imprisoned.

Up to 4 o clock this afternoon forty bodies had been taken from the mine. Iffy miners are still imprisoned and it is not known whether they are dead or at ve.

LATER—It is now annarent that the est mate of the number of inces lost by to day a explosion in it e Aberachan coll or made by the owners of the mine was not placed too high and many behave that the dead will exceed their figures. Lo although some fifty bod es have been taken out the ghastly work is a justice beginning and a vast amount or labor will be required to clear may the debris and recover the bod less that remain in the pit. The away the debris and recover the bodies that remain in the pit. Incoming the pit that the course taken out are so hornely mutilated that except in two or three cases identification is inversible.

lated that except in two or three cases identifica-tion is impossible recognition boing rendered doubtful by the fact that the men owing to the close and heated atmosphere of the mine, were no clothing whatsower except heavy boots to protect their feet from the fluts bottom. It is ascertained that the mine has been in a dangerous condition for some time past, that long upo an explosion occurred in an adjoining pit by which five men were killed. The damaged pit was flooded and water gradually forced the gas into the powitch was the scene of to day a disaster. Upon this information it is already suggested that the owners of the mine be prose-cuted for erim and negligence.

COMMINION TO CRUSH THY INT SLATES.

ICADON I.d. 6.—[Special Telegram]—It has trainy red that a meeting of the leading coal more owners have resolved to establish a federation including all the mining districts in the country. South Wales, Northumberland and Durham are temporally excepted. The object of the federation is to raise a fund to resist unifair demands of miners and to resist to the uniformary movement to canabla in the cight hour assistem. The organization will be perfected in a few days.

DISCONTING OF THE BOCK SLAYES,

A Greater Strike in London Than the Recent One Is Impending.
LONDON Fub 1 -The belief is now general that no h ng short of a miracla can avert a repetition of last autumn a strike of dock laborers, with its more nifespread and intense. The dock com-panies have reached all unalterable determina-tion to control their business and conduct it in

tion to control their business and conduct it in their own way while the laborers emboldened by the success of their former strike, seem equally determined to 1, the to the end to manutal in the re-present advantages and compel the companies to hade still furtler concessions.

A commutee of the Dock Laborers whon is making arrangements for a general strike Vion-day. Many of the men are averse to striking again and the action of the commutee causes much discoutant.

The employers union formed for the protection of masters against exorbitant and arragant ex-actions at their men led by irresponsible agitar. or, as eath embraces sixty firms and companies, and offers inducement is to industrious and fight ful workers which the trades mnous will find it fifted it to offset. Among the advantages of the order is the establishment of a permanent fur d for it e benefit of local employes who may be over taken by misfortune.

to be surrounded by the cnemy not all the he taken at such a disadvantage. The na-tion to whom he is responsible for the army under his command will insist, upon know ing why he was so negligent as to allow him elf to be taken in flank and rear, and all the not answer that question
The analogy beingen such a case and that

of the Central Pacific Rutrond Company news be apparent. It is undoubtedly true that for a week or more the company has ocen using every possible exertion to get its trains out of the snow and to break the the existence of the moustage was a hour The Central Pacific agents in the East must have been informed by telegraph of the absolute impossibility of trains getting

clearing and repairing the road cannot il to outweigh the amount of money re-swed from the unfortunate passengers who are been allowed to start out upon an im-usable road. The company will have to apply de-uly for its hoggishness, and it will regel to x outly right.

THE CRAY'S RIVER COUNTRY

Report of it and his Productions to the Astoria Chamber of Commerce.

To the Astoria Chamber of Commerce. By request I give you a statement of the productions of this vale; You all know that our productions are not consumed at home but are shipped to and sold in Astoria, and all our supplies are turchused there and shipped back to Grey sliver, the riven being our main highway. This stream like all rivers in the state of Washington on the Lower Columbia has a rise and fall of from five to eight feet due to the lide and like all rivers running through a timbered country is obstructed more or less by large trees baring in from the sides with their roots on the hanks. This causes the channel to till up on the upper side of them and the stream to become shallow in places. If the snags were once removed enough witer runs in the river to ent it out deep and it would be one of the finest stigams of its size in the

charges from 1 ortland to Astoria 100 miles

GRAY'S BIAFR PRODUCTIONS The following is a part of the productions

te simped in here from Astoria consisting of supplies for logging camps family groceries, mil and feed, limber for building. Not one acre in ten of our tillable and is yet in cultivation and our wast forests of timber have hardly been touched as yet. All of which is respectfully submitted.

S. Watker

How the Fingrent Southerner Answered One Who Ded the North

The following story which was originally old by Wendell Phillips is reprinted in the forum. That most elequent of all the the boutherners as I think Mr Sargent S Prentiss of Mississippi was addressing a crowd of 4000 people in his state, defending the turiff and in the course of an eloquenperiod which rose to a beautiful cilmax be painted the thrift the energy, the confort the wealth, the civilization of the North in glowing colors, ween there rose in the vision of the assembly in the onen ur a horseman of magnificent proportions and just at the moment of hushed attention when the voice of Prentiss had ceased and the applaces was about to break forth the borseman exclaimed "D—— in the North! The curse was was so much in unison with the habitual feeling of a Mississippi au dience that it quenched their cithus assumand authing but respect for the sneaker kept them from cheering the borseman. Prentiss turned noon his lame feet and said. Major period which rose to a beautiful climax he them from cheering the borseman. Prontiss turned upon his lame feet and said. Major Moody will you rein in that horse a moment. He assented. The orator went on 'Major the borse which you ride came from upper Missouri the suddle that surmounts him came from Trenton b. I the hat on your head came from Danbury. Come the boots you wear came from Lvin Mass, the lines in your shift is Irish, and Boston made it up your broadcath coat is of lowell manufacture and was cut in New York and if to day you should surrender what you owe the d—north,' you would sit stark maked.'

The Highest (on p liment That Can Be Faid to a Woman in India

Speaking of animals" says Mr Edmund Russell the latest exponent of art in man's dress the elephant ungainly as it looks doesen't move in jerks or awhwardly, but with a most complicated combination of

dossen't move in jerks or awkwardly, but with a most complicated combination of motions that is exceedingly graceful and dainty. I spoke of this once to one of my Indian pupils. He replied that that explained the lines of their oldest Sansont poets who said that the highest compliment that could be paid to a woman was to say that she moves like an elephant or she moves like a swan I took him the disphant comparison as a compliment was obsolete in this country.

Mr. Russell who lociures on artistic dress the study of individuality and limited feat ures in their application to woman's dress has much the say on this topic. While he sees more hope for improvement in woman's dress than in may's, he thinks it is, If possible more grace destroying. He asked his Indian pupil once what he thought of the appearance of sociut ladies. The Indian replied that he thought they looked his an tipus torses with movable heads referring to the lack of nobblity exhibited mainly the fault of sive in dress. This appealed particularly to the Indian, among whose people hitness and grace have been encouraged rather than impeded by the loose flowing style of garmen!

L

THE FLOOD OF '80

It is probable that an excessive estimate of the losses by the Willamette flood has been formed abroad. But in fact, though the waters are high, the losses have not been great Of the bridges that have been lost the most important one was at Salem Un doubtedly in every county of Western Oregon there have been losses, but individually they are of small extent and in the aggre gate the country will scarcely feel them is probable that the railway companies have suffered more losses than all others com

The flood was really very great Perhaps it was not generally understood while the 15 Inches in fifteen days really signified Superadded to this was the snow on the ground, in many places quite deep, which may be estimated as swelling the total to 18 mobes. These accumn ated waters all to escape within a short period were sure to produce an unprecedented flood, and we

It connot be doubted that this flood 19 greater than any other flood with which it can be compared—that of 1361 There may, indeed, be points itely ine Wil lamette river where it is not so great but this will be found to depend on the relative flood in tributary streams, some of which may not have been so Isoh is hitlerto known. The channel at Portland is the one scorpe for all these waters and here the river has been at least thirty inches and possibly three feet higher than in 1961. The ness arises from the fact that the entire city front has been raised as dimest of it rebuilt since the last great flood from the Willam It is probable however that the Columbia

rivit is a more considerable factor in deter-mining the hight of the flood at Fortland than it was in 1861. All the tribularies of the Columbia from Snake river down, in cluding Snake muer itself, are high escape so rapidly as they would, if the Columbia were not a swollen stream The weight and volume of the flow of the

the Willamette watershed has an extent of about 1200 square miles, and that a precipi fation of about 18 inches has had to be car ried off within a few days, there need be no onder that there has been a flood. The like has not been seen for a generation, and Rogue river valleys is still meager, but we judge that the streams in that part of the state were not quite so high as in 1561

FLOODS EAST AND WEST The remarkable thing about the floods in the Willamette and Columbia river valleys

is the really insignificant amount of damage they do, judging by the stand irds that pro wall in other parts of the country. Such extraordinary bign water as that of the last week in this valley occurring in the Ohio or Mississippi, or any of the streams on the east slope of the Alleghenics, would have resulted, certainly in incalculable destruc-tion of propert, and probably in terrible loss nsive or unusual than those of this spring in the Willamette yet the project, at stroyed amounted to millions the lives to to doubten by definition to produce the house of the house of last vent on a cast slope of the Alleghenies Pennsylvania not taking into accourt a Johnstown calamity, which was excep e Johnstown calamity, which was excep-onal in its causes and conditions, were not more extraordinary than ours of this apring, yet they were scarcely less destruct Obio river The floods that affi et the mid dle and lower Vissussippi valley, from Illinois to Louisiana every few years, are less de structive to life than those farther West but they desiroy an immense tion and suffering. The least of these memorable floods did more harm in a single hour than the greatest freshet ever know in the Willamette valley has done in its en

we know how trifling is the loss suffered in lordiand. With the exception of some lumber floated away, some goods dama, ed some suciont and decayed sidewalks under mined and two buildings swept away, the best club house and the South Portland furniture factory the high water has in flicted no perceptible injury upon the city The largest stem of loss resulting from the flood will be the escape of about \$50 000 worth of sawlogs. This is divided among several persons and is a mere bagatelle rel The upper valley has suffered more atively. The upper valley has suffered more in the destruction of bridges, but scarcely otherwise Ten business or dwelling houses seem to have been injured. No loss of life directly resulting from the flood is reported and there are no signs of the dest tution from all enemies outside of a first-class which is the inevitable accompaniment of such an event cast of the Rocky mountains The greatest single loss in the entire valley is probably the \$00,000 bridge in Salem So insignificant is the destruction that the

flood is treated as a joke from one end of the valley to the other serious business men and adult dwelfers in its path take the high water as little seriously as the hors who raits on the swelling torcal. It is a fact in teresting alike to residents and strangers that an event which would be a grim, and grisly horror, bringing destruction destitu tion and death, east of the Rocky moun talks is here one of the amusing incidents of life, entailing nothing more serious than some inconvenience of travel and a preva What means calamity lence of dammness in the Mississippi valley means here noth ing more serious than a wetting difference all seems to be a matter of to raphy We escape the disastrous consequences of Eastern floods because we live high above the banks of swift deep ample atreams whose rise is mainly vertical with out much horizontal spread and whose waters run speedily off to the "ea There are few low evel hottom lands near the surface of the rivers at low water which invite farmer, and home seekers in the Mississipp and Ohio vallers and over which the sluggish waters of those streams spread at high water to remain for days. In Portland at the very mouth of the Williamette a rise of rear y thirty feet only sprend the water of the river over about 1000 feet at the widest point from the river bank back to Third street. Such a relative rise would almost submerge many at ty or the Ohio. This is the secret of a damage so to fing as to be almost incredible to person necusioned to the conditions and consequences of floods in the East.

M so Flizabeth Bisland went West on the Put he or the same steamer the Oceanic which brought her river hely Be castward on the home stretcl. He two young on the home stretch file two young women would have reached New York the same day had not Viss hisland in de the on the home stretch. He two young women would have reached New York the seme day had not Viss bashand mid the tendence will be a fearer of the first heart heart of the first heart of t

was due to the fact that the fast German steamer Ems, which she had expected to meet at Southampton had been taken off the line. Of course she is sorry that she did not win, but mas much as she did not she (with rare feminine generosity) is glad.

Nelly Bly did course she is sorry that she did not she (with rare feminine generosity) is glad rule. The right to fish lusids the three mile limit was of little value.

THE SEA COAST RESERVE

Representative Cutcheon has a bill before the house to establish "The United States Sen Coast Reserve," which is of deep interest to the Pacific coast and deserves its support This Sea Coast Reservois meant whelly lo the forts, and must not be confounded with "the Naval Reserve," which is a kind of sea sea furing life and is designed to serve ex-clusively on vessels. The Naval Reserve resembles the British forces of the same name while the Sea Coast Reserve corresponds losely to the volunteer artillery that Great Britain has organized for coast defense The need of this Sea Coast Reserve is set forth by General Schoffeld who, in his last report shows that the war garrisous of our frontier defense should amount to about 9,000 ar tillers. In time of percentage tenth of this number would be sufficient to take care of the aut a and works and serve also as the nucleus for instructing in time of peace the milit a of the ser coast states who must be reben upon to supply the great mil si needed for defense in war Secretary I acc for who served with high crediting a regi-mental commander during the late war strongly urges the training of attron soldiers as boury artiflerymen suying that this service afters to the National enable of our sea board states a new and streative field for drill and study, and it is believed that they will take pride in training them-cives to n an the defensive worls of their own a orts and will embrace the opportunity to do so as soon as it is officed. Adjutant General should be two heavy artillery battalions of four companies each among the militia of the Profic coast states and he add to Kelton of the regular arms says that there Preshe coast states, and he adds that all the battalions should be transported to

the ne rest forts, and sheltered and rationed the general government for two weeks being a possible need of the general Loverr ment rather than of the states the former should assume the expense in order to en courage the states to create the organ za The organization of this Sea Coast Reserve to of apecual universal therefore to the states of Washington Oregon and (all forming Luder the pending Lul the hea Const Reserve Is to consist of armed and uniformed in line of the states barder up upon the ocean gulf and lake frontiers to the extent of ore regiment from each state seve that from New York and Califor

each state seve that from New York and Carrier in the secretary of wer may accept two regiments each. Fuch regiment is to consist of not more than twelve companies, the field into Intrinsions of four companies each under a major with a bat 1 on a limitary. Instead of a full regime to use the more table heartflown way he accepted from guns and sul marine mines and turnedoes the reserve force du jug the encation pay of the reserve and its subsistence during this period will be like those of the regulary. It is further provided that in time of peace Seacoast Re erve regiments and but allons are not to be

These regiments would form pail of the state militia and during their short period of United States service drill the general government would bear all the expenses of transportation subsistence and pay. At all other times the sea noast regiments would be as much under the control of the state an thorines as any other part of the Automal guard. This Sea Coast Leseive would furnish the militia of Oregon an admirable opportunity for drill and practice with heavy artiflery without cost to them opportunity for drill selves or the state. The maximum time of service required is thirty days but no mini mum is specified and two weeks or at it ist n week annually could be spired by our citizen soldiery Great Hittain has hid such an organization for twentr live years has such bed them with guns and annuan citizen soldiery detailed non commissioned offi ers o: the coast brigade for its instrution buch an organization would increase the efficiency of the milita of this coast and reduce its cost to the state. The cost of adequate coast defenses for our sea hourd East and West is estimated at \$126 000 000 to be expended for new guns and forts by instal ments for thirteen years. This great sum for land defenses is due the fact that for twenty y the fact that for twenty years Congress had built no new works and had barely kept the old structures and arm a ments in decent repair. If these recommen dations of the secretary of war and the adjutant general of the arms are adopted con cerning a sea coast billita reserve, and ad-cquate land defenses for our seaboard the Lacific states could bid defiance to attack naval power like that of England or lrance At a cost to the government of only \$2 000 000 annually including \$800 000 for ordnance, the nation could secure says General Kelton, a large and efficient nu tional force of all arms of the service equal to any emergency

THE TISHERIIS OUTSINGS

The Dominion parliament must soon set tie the question whether it will authorize the renewal of what is tormed the modus torends in the fisheries. This arrangement expires by its own limitation next M is and as it was originally a voluntary offer of the Ottawa government the United States can not projectly speak on the subject of its abandonment or renewal. Canada will probably prolong the wodus throat because it is advantageous to the Dominion since t is a license system by which Canada profits it not only gives the fise of her harbors to our Bahing tessels but produces a reven in which helps pay the expense of the Cama dian protective service. The license fees under the modus execute are larger than under the old license system which was as tablished after the expiration of the reciprocity treaty of 1804. After the expiration of this treaty in 1866 the license charge was only 50 cents per ton on the vessel a tonnaire but now it is three times as much The license of to day gives no right to fish in inshore witers but grants the rights of buy ing but ice and other supplies landing and shipping men and transferring the catch This medus vien he which is clearly a good thing to: Cauda is not a good thing for American fishermen if we must ut the evidence recent's presented before the sen ate committee appointed to examione tride relations with canada. The committee includes benefor this committee includes benefor this committee enthlished the following fact which we extrapt from the report of the committees recent session in New York city.

was of little value

The Caund on his market was in this country
and if discriminative duties were laid against
Guadian fish the tonings of the Caundan ficat
would decrease 50 per cent, in five years American fahermet were satisfied with the erms of the treaty of 1818 even as the Canadians interpreted it, except as to the right to buy food and drink. The number of me; engaged in and drink The number of met engaged in American fishing fixets was 121 (26, capital en gaged, \$79) "49 value of products \$4:0460 number of vessels 6605 ronnage of shins 208 29

It is was because we paid higher wages to our scamen and paid promptly at the end of the sevage In Caun In the enstor was not to pa reason and the fish were marked Leithe Cut the verele had a shorter listance to tryel and the ways paid in Nora Se has were from one thire too e half less than the rate in it is controlled to the controlled marked by the controlled and the ways selected by the controlled and the marked marked in the controlled and the controlled marked marked in the controlled marked marked in the controlled marked marked in the controlled marked ma

A LOOLS RESOLICE

The sensational story of a young girl who ran away from her home in Centrilia te centiv confuns many features that are pittual. Abused and reduced to the position a menual in her father a f mily through a influence of her step mother the foolish creature sought redress by running away with a man who was so impecuations that on being arrested be was compelled to work out his time in the chain gaing. Not content with this greeyou blunder the girl ii lends to marry the unprincipled fellow as so a is bence thus bind ng he-self to 'men al ser vice, which she loathed in her father a house for life and taking upon her elf the additional burdens that fall to the lot of the wife of a the filess inconsiderate man A little common sense would bein a zirl

in the strit in which this one claims that No one, (f Ler not un robable story I- true) can blume a girl in such circumstances for wishing to better her condi-tion. Indeed, an Intelligent capable girl not be expected to be content in, unpaid servitude of this kind, but an honest, sensible way out of it is the sint lest thing possible. A clean turift, willing and capable girl can without difficult find employment in do meetic service at good wages in addition to her hoard and a comfortable home in any city or town of the Northwest A-a rule hurried marriage is in the end the most un satisfactory method that can be devised for esciping disagreeable donestic conditions. The fact that marrage is a means to this end blinds the indement and renders the anxious seeker after felicity an easy prey to a fale worse than that from which she fi es Vany a girl hap tound this to her cost, after it was too late to change her employer, in

It is not und to contemplate the possibilities of useful honorable employment and its reward in content and happiness that have been nutiliessly destroyed by meansider to nurriage us un escipe from disagreeable surroundings. Instead of allording relief is closes the one door to independent effort and to the possibility of happiness that mar raige under conditions that perma the excicles of common sense and judgment in making tobace rea o alle insures

The explor ra of the I pper A then r ver now enabled in surveying the boundary line between Alaska in d. Canada report Indiantibles where it is not timeonimon or the women to have two or more husbands a situation of poly indry instead of polyg amy I olyandry only occurs where the people are miserally poor as in I hibet and cert un districts of Central Africa. In Thibet the soil is so poor according to a recent tourist 'the tribes who live chiefly by the lage and herding find it impossible to have one or more wives for each man It is therefore the custom of the brothers in a family to have only one, wife among them and while one brother goes on trading jour general manage and counsellor people that are very your practice job an dry not from choice, but from necessity where savages are rich or even comforta bie they have one or more wives or support a haremal following is where a support a haremal following is where support and the friends of a sake and at far I are as Hadron Buy there is polyandry or promisents with married relation. An Local with the married relation in the far I are as the first who are lonned for the occasion. Along the Alaskan Indians two or more men live in the same hut with one woman and among the kontage two husbands are allowed to one woman but one is lord and master white the other large second fid die. Polyandry is only practiced by poor ble they have one or more waves or support and helpless savages whose women a ein the minority for warlike and powerful tribes practice policamy and spurn poly

Blaine thus referred to the question of the prospective annexation of Canala near or remote

I would not attempt to force annexation or acquisition of torciters in any disction. I it at the an testine I must fraight arou that the free poration of the British A ner can province in our Union would be a use addition to cur strength and a large element todded to or agrowth and per joudity. No manillar stronger able, better portion of the trylo axou in section of the Canada. They are not at present contour plating any union with us not are we making host, the convention of the union with us not are we making host, the convention of the union with us not are we making host, the discount of unital interests the quicken and quickening influence of constant intercourse with fainty judgment utilimately draw us together. Our relations with them daily grow more in typate we am of them toward under the other by a from and its of interest file. Being and kindred. I would not attempt to force annexation

The tracic death of M s I us wife of the secretary of the mays and the r young daughter is in incident in one of the most appalling chapters or disaster that has been recorded in the rew year. The soriow of the Blaine family inks into magnificance in the presence of this calain iv. I ruly the shadow of sorrow seems to have fallen up on the administration of President Harr on pursuing it like a haunting spectre. Official hospitality with its attendaring metics will be out of place during the remainder of the social season in Washingto ; and it will doubtlass be limited to the barest courtesic consistent with official life.

The changes in the hou eroles reported in this morning's dispatches are not very ratellig blo to a layn an but they all seem directed to the object of presching obstruction and expedit no business. After the expense cool the last few wgest the coultry a liber 1 ite rendy to believe that business. ness vill go ahead in the house under at mo tany rule with Speake leed in the

the United States, the state, or the cit and county of New York; all esptains or en gineers, or other officers employed upon any yeasel; all superintendents, conductors and engineers on railroads, all telegraph operators, all the members of the militaduring their time of service and forever after ward; all poli clerks and inspectors of clec tions all members of the Old Guard Taus list includes nearly all those who by educa-tion or experience would seem to be pecuharty qualified to serve as jurous. The exemption of the militia is abourd for after serving their seven years (and when at about the age of 2) they are discharged and exempted from jury duty. The result is that the jury boxes in New York eny prefilted with foreigners

The Western Union Company which had been the chief means of communication with the flooded district through the com mand of wires as far as Rindle and Corvallis. on either side of the river recovered a wire to the east via Tacoma and Helena yesterday, and the Associated Press report is now (); ing through the regular channel. It is con pany his had incredible ob ticles to ever come in the working of lines th such the tegion of fleods stor licenaces and lind slides and the ter porary super by of its rivid a service reflicts in no many up in the energy and skill of the lock man againent

What seems to have been ic in it know hat dalide and in manche in the Cir. and Aline mountains Sunday completely wrested the town of Burks and narrowly copied over whelming other villages in its 1 th. The conditions of the list w. & here be upon barly (worthle to the 1 and of disaster. It has been as frequent in the la ank in un tains as the Coura Alone Jid ng francob servations mide done the sound in the of the Columbia. Happing however third v been no human habitations in the just of the Oregon landslides

The flood is prictically over the ray r fell inpuly at all pents above vester in though its decline was slower it Pertland on account of the mereising volume of water coming down the Columbia How Before night the dry I mi to reappear in most of the intuit ited stores and warehouses and the streets will begin to assume their wonted aspect. It a work noods will know we have had a floor. It has been a wet time but there is small harm done

It is a comfort to learn with the breaking of the news bookade that the lattle of the been going on without interruition since Portland has been soluted from the world The house meets every day the democrats try to obstruct busine a Stenker Read and presses them with a decision and a little work is done. It does not appear however, thus any final action has yet been taken on the election cases or that progress his been made with any matter of legislation

The year of 15-3 was prosperous f rahlpbuilde a In M une the ship yards have been but's producing schooners of big tor nage, which are easily handled are enormous carriors and have small running expenses. He timore has turned out during the year over ha f a million of dollars in new shipping uid her shippers have now orders on their broks

Delivered at the Plast Units an Church by Rev Dr T L Elict-Press Comments

The Speinl Science le ture of last evening drew of the appreciative midlence in spile of the flood and other attractions. We Eliot read a carefully prepared sta ement in which were considered lirst-The his ore of Angly Savon elections cto d-The origin and hate y of the secret in led the device known as the Australian or limits, pallot The ut form principles in this

limits; ballot The us form principles in the shat we four ... First—The hallots aloli be princed and distributed at the public expense. This takes away the

is First—The hallots shall be printed and distribited at the public extensor. This takes away the making excuse for assessing candidates, or opening birrels.

Second—The names of all candidates for the same office should be printed on the same bailot. This practically destroys dealing and trading between candidates makes indeprindent nominal continuous possible, while matring them absoluted more possible, while matring them absoluted more possible for the policy and makes it impossible for the policy and makes it impossible for the policy and produced to be within the politing place on decition duty by secret public officially. This cut off practically the occupation of the paid political worker. Fourth—Only bailots so delivered should be voted the voter must be guaranteed absoluted private in preparing his bailot, and the secret of the bailot made compilation; This effects all prevents intimidation, and almost destroys efforts at briber on the day of the text for them began what might be called and

almost distroys efforts at br bery on the day of the licti rer tuen began what might be calledged a clinic. In one coract of the room a polling booth wis set up with calling and partitions, where volors prepare their ballots. Several of the anida me by invitation served as officers and voters, including the beschool in case of an 'ulist erate. In this way was aboven the simplicity of the ballot reform and the thoroughness with which it caus off the political worker from the day of election. It was the verdict of all who heard the licture that it should be precented at the earliest day to our legislature for their adoption. The law has prevailed thirty years in Australia, e gitten jears in Great Britain seven in Causads and has been recently adopted by seven states in the Union notably Massachusetts, where

Montesano Wusl., Ith "- to the First R.]—
My at ent in has been called to an article which appeared in a recent tastic. If fix. One onto signed Sarah L. Blair and as said article is called lated to lear ea diske impression in the into Is of those unaquidated with the creumstances and as It does an injustice to I cyresentative Wilson I would respectfully ask space in which of Mr Wilson to ask for the rome said of Sarah E. Blair and he appaintment of the reasons winched Mr Wilson to ask for the rome said of Sarah E. Blair and he appaintment of N. I. Farson to the postane tersilip at Montesano to doe on a short. History of the affairs of this postone from issue to the present time will be necessary.

When the democratic party came into power under Grover Cleveland a ryuditan way agost master. Will Blair who was of of the leaders in organ zing the democratic party in this Chehairs county and who in 1884 was candid the for should on the December of the party of the late of the late of the late.

shuriff on the democrat c tilket being defeated by J. A. Perkins the requiblement indidate to low ing the punciple that "To the victor belongs the spots applied for and sectived the position of postmaster at Mintesano. He secured the apportment on the ground that I is was a good democrath his endorsement being mainly from parties no resident as a Montesano process of Washington to County change mode against the spredecess was that, I is was a republicant. He had the position at all after the observior of resident Harrison when I is resigned in an oriol burst Fidher has whe who received the resident surface and the resigned of the position of the form the same administration which had the I usband a postmaster that of Green's Cheen and and the resignation and appointment was governally understood to be for the purpose of leeping the of life in the fam. Assignation and a publiment to a generally understood to be for the purpose of leeping the of the state of the purpose of leeping the of the state of the third was defined for sheriff Mrs. Blair expressed her independent organist those who yout for a republicant reshort. When W. H. Blair received if a appointment of postmaster, him wife received if a appointment of postmaster, him wife received a difficult only she knew that the position was given him solely because he was a democrat and against the ready unanimous wish of the partons of the olice and although to use the same time of argument which appears in her letter the person review was a stanch reguld can the sent of a sold or who we can the artifer the person review as a stanch regular can be sent of a sold or who we can the artifer the person regularity and who cerved during the whole was and is earlier to the rest indicate the properties and who cerved during the whole was and is earlier to reput form was the neglection of a lattle, the republican was the neglect of lattle, the republican was the neglect with his life to they look at it if it is done in the first here of the received and the results of the received the results of the personal letters for her regulationalism.

A statement is had in the other than that a cheed by personal letters for her regulationalism.

While the lady would undoubledly not make a statement which she did not believe to be true yot the facts are that 1 or one of the geniterien named would be the for her regulational and the case of the geniterien named would be the for her regulational and the cast of the control of the regulation of the regulation of the results of t

AT THE THEATERS What Is Amusing the Patrons of the Drema In Portland Just New

Mr John S Murphy made his first appearance of Dan O'Hara in the play, Tac Kerry Gow 'The play is one of that class of plays always in teresting to the student of character drain' mas teresting to the student of character drama anasumen as it deals with a type familiar to us all. My Murphy makes an excellent Dau. He has a keen appreciation of Irish character and excepting a certain lack of life and activity he delineates the several phases of character well. Wiss Anila Fallon as Nota Daw looked the character to perfection, but she has ny the casy action nor the fullshed brogue that would make her delinquition thoroughly acceptable. Wm H Leary as My O Dawe was capital. He is an excellent actor and phases does his work well.

Segming on Monday even ag next Vern ma Beginning on Monday even ag next Vern ma Jarbeau the accomplished soubrette and comedi-eane will commonce a week's engagement in her sparkling nomed). A. S. GIBBS, ENDIDELL FOR SCHOOL C ET C. For City of Portland. hischen, March 10, 1880.

Port

Washington,

Reasons Why Port Townsend is Des-

lined to be a City of Great

Importance,

EASON 2: I use of approach from the ocean A sailing vessel can run direct from

the ocean to the anchorage in Port
Townsend Eav, with a westerly
wind, or best up to her anchorage
with an ensterly wind, the strauts of Fuca
heing over 12 miles w dc, while above
Port Townsend to any of the cures the

navigation is more intricate, requiring the constant use of tugs. Steamers can it in constant use of tuga — teamers can ren
the distance from the occum to Port Lown
send during the densest fors by und of
their compuse alone there being no hit
den danger to apprehend

EASON 3: It is the port of en try of Fug t Sand and its geographical position is such that it will afford greater facilities to commerce over a great or extent of country than into use 1 osition on Puyet Sound
